

TAMASSOS Research Project (ONISILOS Programmes, UCY)

Project Coordinator: George Papasavvas

Post-Doctoral Researcher: Florian Schimpf

Project study of Buchholz's documentation, analysis of the material evidence

Aim publication of the long-ago finished excavation and the hitherto unknown material

Background several excavation campaigns headed by Hans-Günther Buchholz south of the Royal Tombs which lead to the exposure of the city associated with them (1970-1980/81); Buchholz died before he could publish the results (2011)
