

ECONOMICS RESEARCH CENTRE
DEPARTMENT OF ECONOMICS
UNIVERSITY OF CYPRUS

Title: Special Scientist Researcher (PhD) / Special Scientist for Research
PhD in Economics/ Econometrics/ Econometric Modelling

No. Of Position(s): One (1) or two (2)

Category: Contract for one year (12 months), renewable for an additional year (up to 24 months)

Location: University of Cyprus, Nicosia

The Economics Research Centre at the Department of Economics of the University of Cyprus accepts applications for up to two (2) full-time or part-time Special Scientists PhD positions for research in applied economics and/or econometrics and/or econometric modelling, based on a contract for 12 months renewable up to 24 months. The contract will be renewable subject to individual performance and project needs. The full-time position refers to 140 hours per month.

Research positions are primarily funded by the EC's Recovery and Resilience Plan for Cyprus, the National Promotion of Innovation and Research Foundation, the Ministry of Finance, the Central Bank of Cyprus, as well as other sponsors at the Economics Research Centre.

DUTIES AND RESPONSIBILITIES: The duties and responsibilities of the above position(s) are:

- Applied Econometrics using current state-of-the-art techniques with an emphasis on the development of models and tools for economic policy analysis.
- Programming using programming languages and software of e.g. MATLAB, R, SAS, STATA, GAUSS.
- Writing research papers aiming at high-impact international publications.
- Writing articles/reports to analyse and interpret the results and conclusions for policy analysis.
- Presentations of methodologies and research results in international and local conferences and policymakers.

QUALIFICATIONS:

- Candidates should have a PhD degree in Economics, Econometrics, Finance, Statistics, Mathematics or other related fields. Candidates who are near completion of their PhD and will defend their PhD within three months of this application would also be considered.
- Strong applied econometrics knowledge in PhD or related research papers/projects .
- Related experience and publications will be considered as an advantage.
- Very good knowledge of programming languages will be considered as an advantage.

- Experience in climate change will be considered as an advantage.
- Character integrity, confidentiality, organizational and administrative capacity, responsibility, initiative and ethics. High academic performance and appeal for research.

EMPLOYMENT TERMS:

The position is on a contract basis for 12 months, renewable for up to 24 months, subject to individual performance and project needs. The monthly gross salary is up to €2,100 depending on qualifications and experience (employee contributions will be deducted from this amount). The position does not include a 13th salary bonus.

Interested candidates should submit the following documents:

- Letter of interest for this position
- Detailed curriculum vitae in Greek or English
- Copies of transcripts and analytical grades
- The names of two academics or/and supervisors in case of policy institutions, from whom references may be requested

Applicants are invited to submit their application by the 31st of March 2023 at 14:00, at the following link: <https://applications.ucy.ac.cy/recruitment>. For any additional information regarding the positions please contact Professor Elena Andreou at elena.andreou@ucy.ac.cy

At least the best three candidates that satisfy the required qualifications, will be interviewed by a 3-member Committee.

Candidates shall be informed of the result of their application by the relevant entity.

The University of Cyprus shall collect and process your personal data according to the provisions of the General Regulation on Personal Data 2016/679 (EU).

The University of Cyprus (UCY) is committed to promoting inclusivity, diversity, and equality, as well as the elimination of all forms of discrimination in order to provide a fair, safe, and pleasant environment for the entire university community, where students and staff members will feel supported both in their professional and personal development, within and beyond their multiple identities. To this end, UCY seeks to create the necessary conditions that will encourage and respect diversity, and ensure dignity both in the workplace and society at large. Moreover, UCY has adopted specific policies to promote equal opportunities, as well as respect and understanding of diversity, while it is committed to promoting and maintaining a working, teaching, and learning environment, free from any form of discrimination, whether direct or indirect.
